

Jorge Rodas-Silva

Professor and Researcher in Computer Engineering

Associate Professor and researcher at Universidad Estatal de Milagro (UNEMI) and Ph.D. in Computer Engineering from the University of Seville, awarded Cum Laude with International Distinction. His work integrates business intelligence, educational data analytics, digital transformation, and software engineering to advance innovation in higher education. He has more than 15 years of experience in research, teaching, academic innovation, and university management, and currently leads academic process innovation at UNEMI.
